THE RALPH E. HUNTINGTON NURSERY

GROWER AND IMPORTER

PAINESVILLE, OHIO

MRS. RALPH E. HUNTINGTON

RALPH O. TAYLOR

August 1st, 1934.

TO THOSE WHO APPRECIATE HUNTINGTON'S QUALITY—

Do you know that many of the leading garden authorities are recommending Fall planting of certain alpine and hardy herbaceous plants?

Do you know the varieties that are recommended and the advantages to you in planting them in the early Autumn?

As a dependable guide for the correct varieties we suggest the following list of plants which has been selected after thorough experimenting and with the advice of competent landscape architects.

Many times in the Spring plants are retarded in their development by transplanting after they have started their growth. Your garden loses the charm and beauty of the flowers that first season.

Most of the varieties in this list are early Spring bloomers. By September they have, for all practical purposes, finished their development. They are strong, healthy, vigorous-rooted plants. When transplanted to your garden in September they make a certain root growth during the late Fall so that by Spring they are ready to continue their natural, unhindered growth, and will bloom profusely with that "established appearance", so desired in a garden or rockery.

Plants are cleaner, sturdier, and easier to handle in the Fall. September is much to be desired over unsettled April. There are so many things to do in the Spring—divide plants, prepare annual beds, sow seeds—Why not do the work that is better done in the Fall? When planted in the Fall your alpine garden and borders are ready—and from the first bloom of Spring you can enjoy it to the fullest extent.

Our plants have thrived and developed into rugged specimens despite a year of the most adverse weather conditions possible. It is further testimony to the truth of our slogan—"What will live and grow for us will live and grow for you."

Your interests are our first consideration, and we trust we may have the opportunity to share with you in making your garden more distinctive and lovely.

Yours very truly,

RALPH E. HUNTINGTON NURSERY

Huntington's Selected List of
RARE ALPINE and PERENNIAL PLANT
NOVELTIES of Recent Introduction

We are particularly proud of this season's offering of new plant introductions for they have proven their hardiness over a period of more than a year of the most severe extremes of weather that this Nursery District has ever experienced.

As worthy additions in furthering the beauty of your garden we confidently recommend the following plants to your attention.

ASTER ALPINUS "NANCY PERRY"—A pleasing dwarf with large, delicate blue flowers. Each 30c

CAMPANULA "BELLARDI-MIRANDII"—A delightful alpine with glossy green foliage, and silvery blue bells on three inch stems. Each 50c

DELPHINIUM ELATUM "ICEBERG"—The splendid new white that stands four to five feet with erect spikes. Each 30c, per three 75c.

EUPHORBIA POLYCHROMA—Not new, but a beautiful plant for the border or rockery. Covered with yellow flowers of various tones from April until late May. Each 30c, per three 75c.

GAILLARDIA "BURGUNDY"—This recent novelty has met with wide appeal because of its rich wine-red color. A strong grower. Each 25c, per three 60c, per ten \$1.50.

HEMEROCALLIS "APRICOT"—An attractive hybrid of brilliant apricot which brightens the early June garden. Each \$1.00.

HEMEROCALLIS "MODESTY"—One of Mr. Betscher's fine hybrids being a rich saffron yellow of extra large size. Blooms from late June well into July. Each \$1.50.

HEMEROCALLIS "MRS. A. H. AUSTIN"—Another Betscher hybrid that gives a striking spot of color. A deep golden orange of a rich tint. Blooms late in July. Each \$1.00.

HOLLYHOCK "ORANGE PRINCE"—A beautiful double deep orange, a color heretofore lacking in this flower. A stately grower. Each 30c, per three 75c.

IRIS ARENARIUS—One of the most dwarf of all Iris. This rare plant shows good sized blooms of deep golden yellow in the early Spring. A gem for the rockery. Each 75c.

PHLOX SUBULATA "ATROPURPUREA"—One of the most popular of last season's introductions. A deep, bright, wine-red that blooms profusely in the Spring. Each 25c, per three 60c, per ten \$1.75.

PYRETHRUM "LANGPORT SCARLET"—A dazzling vermillion scarlet with a bright golden center. Extra large single. Grown from true stock by divisions. Each 50c, per three \$1.00.

VIOLA BOSNIACA—A pretty variety for the alpine garden. It has a profusion of dark rose colored flowers in the Spring. Each 25c, per three 60c, per ten \$1.75.

VIOLA "JERSEY JEWEL"—A colorful and showy rich purple of extra large size. An early bloomer that continues well into the summer. Each 30c, per three 75c, per ten \$2.00.

VIOLA "LAVENDER GEM"—This charming Viola is similar to "Jersey Gem," except that the color is a soft deep lavender. Each 35c, per three 90c, per ten \$2.50.

VIOLET "ROSINA"—A new sweet scented shell pink Violet that blooms very early in the Spring. One of the most fragrant of all. A distinct novelty. Each 40c, per three 90c.

Huntington's

Selected List of ALPINE and PERENIAL PLANTS

For Fall Planting

There are certain plants which will give you excellent results if moved in the Fall. As a dependable guide for the correct varieties we offer the following list.

September is the ideal time to transplant, and as an incentive to plant early we offer a 5% discount on orders of \$2.00 or more, 10% on \$5.00 orders or more, if ordered before September fifteenth.

You will find these plants of the usual extra Huntington Quality, with splendid root systems, and true to name. They are plants which will give your garden an "established appearance" in the Spring.

For orders under \$1.00 please add 25c for extra handling.

HUNTINGTON'S SELECTED PEONIES

Fall is the correct time to transplant Peonies.

We have selected a group, at special prices, which will give your garden a profusion of splendid bloom and will provide you with a succession of delightful cut flowers during the Spring.

All of these Peonies have been carefully inspected and are free from disease. They are the regular standard size, three to five eye division.

ALBATRE—Immense white globes tinged ivory with shadings of lilac and carmine. Mid-season blooming.

ASA GRAY—Lilac shaded sprinkled with minute dots of deeper shading. A free bloomer during early mid-season.

CHARLES LEVAQUE—One of the earliest to bloom. A light pink.

EUGENIE VERDIER—Erect free bloomer of light pink with a center flecked crimson. Fragrant mid-season.

DUCHESS DE NEMOURS—One of the best whites for cutting. A large clear pearly white. Fairly early.

FESTIVA MAXIMA—A very popular white for cutting. Extra large size with crimson splotches in the center.

GERMAINE BIGOT—Very large pale rose with lilac overlay flecked with crimson. A mid-season bloomer.

GLOIRE DE CHAS. GOMBAULT—Center of light rose with a collar of cream petals. A strong grower late mid-season.

KARL ROSENFELD—One of the best dark crimson Peonies for cutting. Large flowers of perfect form. Each 40c, per three \$1.00.

LATE SINGLE ROSE—A very attractive variety resembling the Japanese forms. A vivid shade of rich pink.

MAD. EMILE GAILLE—A Globular flower of lilac white shaded to a milk white in the center. A late variety.

MARCHEAL VALLIANT—Large dark mauve pink flowers on tall stems. A fine late bloomer.

MADAME DUCEL—Light mauve rose with silvery reflex. A strong and profuse bloomer.

MONS. MARTIN CAHUZAC—A rich blood-red garnet. One of the deepest colored of all. Mid-season. 40c, per three \$1.00.

Annual Seeds For Fall Sowing

It is not generally known that some of our best and prettiest annuals may be advantageously sown in the late Fall.

The following varieties are recommended for Fall sowing — Alyssum, Calendula, Calliopsis, Candytuft, Centaurea, Clarkia, Eschscholtzia, Euphorbia, Godetia, Gypsophila, Hunnemannia, Kochia, Larkspur, Marvel of Peru, Didiscus, Linum, Lupines, Nemophila, Nicotiana, Petunias, Poppies, Phlox, and Verbena.

These can be handled the same as we suggest for the Fall sown Perennial Seeds, or they can be sown in your garden and do not have to be transplanted in the Spring.

**To further interest in sowing Annuals in the Fall we are offering
15 packets of Annual Seeds for \$1.00**
